MAURICE M. GUY
Principal

The combined efforts of those producing this 1950 S-I-S Boom have given us a book of which we may be proud. It brings in printed form a fine resume of the school year. In the years to come it will continue to bring back memories of 1949-50.

THE 1950 CIRCUS

The 1949-50 school year draws to a close but happy memories of the 19th annual Spendless and Seemore Circus will remain for a long time. The circus was off to a flying start as South's concert band, playing several melodic tunes, set the fast-moving pace of the big show.

Accompanied by a bright fanfare, a robed figure representing the goddess of peace appeared; Joan Bell was the goddess. The trumpeters were Claude Lemmer, Dick Weinberg, Bill Booth, Allen Spousta, and Don Brady.

Queen Barbara Armstrong, crowned by Mr. Guy, and her court of four, Adelaide Brown, Pauline Catrain, Marilyn Schirmer, and Dorothy Thompson, were the center of attraction for amateur photographers.

The program was then turned over to Ronald Clark, our master of ceremonies, who was introduced by Mr. Guy.

"Silken Sorcery" a magic act, featured the following boys: Edward Germain, Robert Patterson, and Peter Rankin. Another magic act "Jerome, with the Oriental Touch" featured Jerry Lake as Jerome and Shirley and Beverly Cherry as his assistants.

Costumed as in grandma's day, "Ye Olde Gym Classe" was appropriately dressed in outfits which included long black stockings. "Ye Oldsters," Helen Belinger, Janet Bolger, Shirley Balzer, Barbara Burk, Joan Campbell, Donna Carlton, Donna Citers, Luanne Cooper, Delores Durham, Lois Geese, Joan Green, Kay Lemmer, Janet Miller, Carol Morningstar, Joan Rice, Leona Rothman, Catherine Sauve, Joan Schardt, Rachel Tiedke, and Bonnie Wehner turned somersaults, did handsprings, and formed pyramids with the greatest of ease.

Keeping right in tradition with a circus, our student clowns, Fred Fultz, Richard Meier, John Sutton, Jim LaDouce, and Ken Rooker, put the audience in great humor with a harmless but rather noisy atom bomb and a baseball game. Ken Rooker, following in his older brother's tracks, showed his beautiful pony, Mike, in another clown assembly.

The two girls in the "Red Hot Hoppers" surprised the audience when they turned out to be two boys, Ronald Gould and Walter Kemmer.

Barbara Mann and Carolyn Crawford thrilled the spectators when they hung by their teeth in "Human Butterfly." The girls performed at alternate performances.

A bit of old Scotland in all its color and gaiety was brought into our circus by the merry dance, "Scotch Hot." While Jeanne Russell, Gerry Herbert, and Norene Cherry sang the popular "Hop Scotch Polka," Patsy Ashbaugh, Sue Atherton, Alice Bain, Sue Blohm, Janet Burk, Roberta Rifken, Nancy Rupp, and Carolyn Wood danced in couples. Marilyn Kelly accompanied.

"The Tumbling Trampoliners" had circus fans on the edges of their seats as they executed flips, somersaults, turns, and layouts. The boys were Darrel Brown, Tom Jones, John Hart, Gerry Garcia, Randy Scheib, Bob Barowski, Gale Fox, Don Zastrow, Dick Wenzel, Leonard Zorn, Art Keith, Art Engle, Bill Morris, and Don Brady.

As an extra feature, Miss Sadie Hawkins, alias Barbara Mann, gave the audience many laughs with her comedy on the trapeze.

Lights out! Rolling in the dark with only red lights to distinguish them by were "South's Rollercades." Circles, drills, and difficult formations were combined to thrill the crowds by these

boys: Dave Austin, Bob Becker, Orrin Geeting, Ronnie Lange, Jim Munger, Jack Otter, Jim Reis, Carl Rossman, Bob Schlaefke, and Bob Steckert.

"Animal Antics," consisting of a trained monkey, pony, and three dogs from the Kelly and Morris Circus, did a routine of amusing tricks.

Sittin' on Top of the World! South School's own "Moon Maids," demonstrated difficult feats on the ladders including the spectacular "turn." The girls dressed in yellow and purple satin were Barbara Burk, Myrtle Chartrand, Shirley Chema, Jacqueline Emmitt, Joan Rice, Catherine Sauve, Corrine Schultz, Nancy Swift, and Dorothy Zastrow.

The first elephant ever included in South's Circus was Jewell, America's smallest perfoming elephant, weighing only 900 pounds. She grunted, cried, and proved a thrill for the youngsters.

Graceful yet daring "Skylarks" executed feats in the air to provide circus fans with good entertainment. Led by Loretta Rant, these aerialists were Barbara Blakeway, Jane Dupree, Jeanne Miller, Jean Robertson, Carole Scherping, Polly Stormont, Nancy Ure, Sally Carole, Ellie Harbert, and Kay Rodeitcher.

Doing a fast tapping routine to "What Do They Do On A Dew, Dew, Dewy Day" was Sue Howe in "Our Queen of Tapping Toes."

Over and over she goes, and when she'll stop nobody knows. Eunice Edwards and Lila Parks thrilled the spectators with their new and difficult exhibition on the revolving ladder. "Daredevils of the Air" was a well deserved title.

To conclude the King of School Shows, Bernice Kelly, America's Premier Tight Wire Artist, demonstrate difficult dance and acrobatic feats on the tight wire.

ELEMENTARY THROUGH THE YEAR

Sixth Grade, Room 262

In Science this year we had an interesting topic, weather. After we had given our reports, we started a weather bureau and we predicted the weather for each day. At first our predictions were wrong but after about a week or so we made some fairly good ones.

One of the most interesting things we did this year was square dance.

In Social Studies we studied many lands but the most interesting one was India. We learned how the people live and about their religion which is Hinduism.

Fifth and Sixth Grade, Room 260

We started our social studies this year with the interesting countries of Mexico and China. Next the sixth grade enjoyed the study of the Middle Ages. Large bright colored freizes, maps, and a model of a castle were made. The fifth grade had a project of writing letters to the board of commerce of each large city to get imformation for their study of the United States.

Some of the things we liked best this year were giving plays, square dancing, and playing tonnettes.

Fifth Grade, Room 214

During the past year our fifth grade made many articles for the Junior Red Cross. We also made Christmas tree decorations. While we were studying cotton, we worked out a dramatization of Eli Whitney. We have studied the United States. its possesions, Alaska, and Mexico. In science we have studied insects, weather, posture, birds, and trees. We have also worked with two part songs and writing with pen and ink. In arithmetic we had fractions and decimals.

Fourth Grade, Room 252

We learned many interesting things about Holland, Switzerland, Norway, Cold Lands, Jungle and Desert Lands. We made a Dutch play, Cold Lands books, and a rug which we designed and wove.

Our room gave a radio program "The Life of George Washington."

In our science exhibit we had rocks, shells, driftwood, hornet's nest, snails, and fish. Everyone enjoyed our exhibit of different kinds of rubber and latex. We showed how to make rubber from latex by coagulation and evaporation, and how to vulcanize pure rubber.

Third and Fourth Grade, Room 254

In the third grade we had lots of fun making a 6' x 9' log cabin and the furnishings in our study of pioneers. We also made a flatboat. When we studied Indians we made a tepee. In the fourth grade we made a windmill, a juk (yoke), and 4' by 4' chalk drawings in our study of Holland. We learned to give reports on different topics on different lands. Of all our science we enjoyed the study of the sun and planets most.

Third Grade, Room 258

We have done many interesting things this year. We learned about Indians and pioneers. During our study of transportation, we had fun building a model train. We also had a display of old and new cars. We had fun making a Christmas display case. We learned to do carrying and borrowing an adding and subtracting and how to multiply and divide.

Second and Third Grade, Room 162

We began the year with a study of aircraft. We visited an airport and made models of planes.

Being interested in the weather, seasons, and the calendar, we made calendars for our parents for Christmas. We studied Indians, and made a tepee, tools, papooses, pottery, and head-dresses.

Third grade finished the year with a study of pioneers. Second grade studied milk and milk products, visited the dairy, made butter and were hosts to a butter party.

Second Grade, Room 256

Much interest was aroused in the study of bread from the seed to the loaf. Wheat books were made, stories written, and displays were assembled of wheat, flour, and machinery used. The fire station, transportation, and police department were also studied with enthusiasm. The children were absorbed with time telling, number work, and the use of money.

Second Grade, Room 160

This year we learned many interesting things. We found how food is grown, where it goes, and about the stores and markets it is sold in. We built a grocery store and sold groceries. We also studied the fire station, and wheat and bread.

First Grade, Room 158

We have learned to read and write, and have done many interesting things this year. We studied pets, story book friends, milk and city helpers. Now we are working on the fire department. We visited the fire station and learned how the firemen put out fires.

First Grade, Room 152

We have had a very busy year learning to read and write. It was a big thrill to be able to take library books. We studied about the bakery and made rolls and butter in school. Most of all we enjoyed our visit to the bakery.

SIS SNOOPER

As I write this the "spring is sprung"
But what's it to me if "the grass is riz?"
No time to worry where "flowers is."
With homework piled high and a project to do,
The birds can go winging and the doves can coo
The grass can get green as an Irishman's hat
But I've got to keep sitting where I long since have sat.
But I guess I'll cheat on my hours of toil,
And gossip while burning the midnight oil.
I know a girl Frank Perry can handle.
Who is it? None other than Joan Randall.
Her heart is light; her thoughts far away
For Bill Booth is Tiny's sunshine ray.
To Dave Austin there's a gal really dear.
Do you know her name? Of course it's Gwen Near.
The weather is hot and every thing nil;
All pardons, of course, to Joan Shields and Dick Hill.
It seems to play baseball is somebody's fate.
They're playing in couples--Look who's at the plate!
It's Barbie and Al, Barb just made a good swing.
Schlaefke caught it at once with the help of Marg Sting.
McEwen is pitching out on the mound.
Skip Congrove is watching from safer ground.
For Orrin every ball can ride right by
'Cause on Jean Irving he's keeping his eye.
Acting as umpires, calling each strike and ball,
Esther and Al can boss them all.
I hate to be the one who has to say this
But I guess it's goodbye from your old pal
